

Invitation to Korean-German Lightweight Technologies Business Seminar and Networking 2022

SBS systems for business solutions and the Korean-German Chamber of Commerce and Industry (KGCCI) cordially invite you to a **Korean-German Lightweight Technologies Business Seminar and Networking Event in Seoul on November 28th, 2022.**

To support Korean-German cooperation, the German Federal Ministry for Economic Affairs and Climate Protection (BMWK) has established the “Business Development Program Korea-Germany on lightweight technologies”, which, over the course of two years, offers an array of events that bring the industries of both countries closer together. As part of the two-year program, a German lightweight business delegation will come to Seoul to connect with the dynamic and innovative Korean lightweight industry. Following a round of presentations by the delegation on German lightweight technologies, German and Korean lightweight companies will have the opportunity to network with new potential clients and partners.
