

WE MAKE
YOUR IP WORK

Stolmár & Partner

INTELLECTUAL PROPERTY

WHAT WE OFFER

Patents & Utility Models

Protection for your ideas – not only in Europe, but also worldwide

Validations of EP patents

Thanks to our own automated validation platform, we are able to validate European patents after grant at lowest in class prices

Trademark & Designs

From prior right searches over national and European filings to monitoring, we cover all aspects of trademark and design protection

Legal

We offer a broad range of legal services connected to your IP: litigation (also pan-European), contract drafting and management, M&A support, copyright protection, IT law

WHY OUR CLIENTS CHOOSE US

Easy to Reach

You can reach us via email, on all ViCo platforms (MS Teams, Webex, Skype, Zoom) and through Messaging Services (Whatsapp, Wechat)

Best Practice

We work from a central administrative system including client access to files and VPN data and file transfer, providing security, accuracy and efficiency.

Best Protection

We proactively suggest broader claims or different strategies, keeping in mind competitors' products.

Bespoke IP strategy

We regularly hold seminars to connect with clients over their IP strategy and commercial goals, thus ensuring optimal alignment for prosecution

Fast Turnover

We confirm instructions on the day of receipt, forward Office Actions 1d after receipt and provide an analysis within 2w after receipt.

Worldwide Network

We are connected to at least two different partner prosecution and litigation firms per country, enabling us to protect your IP rights globally.

Transparent Billing

Flat fee packages for standard procedures and comprehensive cost estimates prior to taking any action, to allow you to make the most of your IP budget.

Personalized Case Management

Easy-to-use, Kanban-based management system for all your IP cases that enables to you to see actionables for each IP right at a single glance.

ONE STOP SHOP
